SUMMARY

IT support professional with more than 6 years of experience in fixing hardware and software problems, remote desktop support, and IT service desk work. I currently work at the Department of Public Works and Highways (DPWH) while finishing my BS in Information Technology, majoring in Network and Cybersecurity, at Mapúa Malayan Digital College. I also build websites with AI tools and work on backend development. I hold certifications in cybersecurity, artificial intelligence, and Construction Occupational Safety and Health (COSH II).

PROJECTS

- **AEGISWFP**, Windows firewall and network intelligence app (C#, .NET 8, WPF, Windows Service). Risk scores for every connection, firewall rule checks, and a family filter.
- **Aegis Sentinel**, malware, phishing and cleanup tool for Windows (C#). File fingerprint scan, link and message checks, quarantine, live protection.
- **Aegis DiskGuard and Aegis Warden**, disk toolkit and one click network and Windows fixes (C#). Portfolio and PDFs: nitroatomic.github.io

WORK EXPERIENCE

Administrative Aide IV, Planning & Design Section | DPWH, Capiz 1st DEO **Oct 2025 to Present**

- Handle incoming and outgoing communications, and keep records and reports in order.
- Support technical staff with documentation, Microsoft applications, and daily office systems.

Senior Administrative Assistant III | DPWH, Central Office **Apr 2022 to Dec 2022**

- Gave administrative and IT-related support to the office.
- Set up Microsoft applications and turned paper office documents into digital files.

IT Service Desk Analyst | Accenture Philippines **Jul 2018 to Feb 2020**

- Resolved 40+ Tier 1 and Tier 2 tickets a day within SLA, including desktop OS, application, hardware, and POS issues.
- Wrote knowledge-base articles that reduced repeat incidents by 15%, and worked with vendors to keep downtime short.

IT Store Support | Forever 21, Global Store Support **Sep 2016 to Jun 2018**

- Supported stores around the world by diagnosing hardware and software problems on POS terminals and store systems.
- Escalated bigger incidents to the right teams when needed.

Remote Desktop Specialist | PeoplePlusTech Inc. (Accenture deployment) **Jun 2013 to Jan 2016**

- Handled remote software repair, installation, troubleshooting, and virus removal for users.
- Took escalated cases and coached new agents while keeping SLA and first-call resolution high.
